Hannigan Engineering Announces Integration of Historic James E. Gaffney Co. Survey Plan Archives

Leominster, MA — Hannigan Engineering, Inc. is pleased to announce the formal integration of the historic **James E. Gaffney Co. Plan File**, a significant collection of regional land surveying records representing several decades of local surveying history across North Central Massachusetts.

The consolidated archive includes:

1. Survey plans prepared by James E. Gaffney, P.L.S. spanning May 1986 through May 2023, reflecting nearly four decades of professional land surveying work.
2. Plans prepared by Allen C. Davis, surveyor of Fitchburg, MA.
3. Plans jointly prepared by Allen C. Davis and Leslie M. Willard (partial collection).
4. Plans prepared by Charles H. Davis, a respected Fitchburg surveyor and father of Allen Davis.
5. Select plans prepared by William K. Bailey, Engineer, Fitchburg, MA.
6. Select plans prepared by George Raymond, C.E., Fitchburg, MA.

This archival integration strengthens Hannigan Engineering's commitment to maintaining the region's surveying legacy, improving access to historical land records, and supporting property owners, municipalities, attorneys, and land-use professionals who rely on these important documents.

"Preserving and organizing historical survey records is vital to the accuracy and continuity of land-use decisions in our communities," said owner Bill Hannigan. "We are proud to carry forward the legacy of the surveyors who came before us and to make these resources available to future generations."

For inquiries regarding access to the James E. Gaffney Co. Plan File or related survey records, please contact Hannigan Engineering at info@hanniganengineering.com or at 978.534.1234.

About Hannigan Engineering, Inc.

Since 1994, Hannigan Engineering, Inc. has provided Civil Engineering and Land Surveying services throughout Massachusetts with an emphasis on quality project management that surpasses our client's expectations. These services include Residential, Commercial, Industrial, Institutional, and Municipal projects. It is more than the services we provide or the plans that we create. It's the ability to bring the project from the conceptual level to definitive design, and through the construction phase in an efficient, cost-effective manner that is the hallmark of our success.
